

# THE ONE GLASS TRAVEL INFUSER

PLEASE READ ALL INSTRUCTIONS BEFORE USE

*Brew tea  
on the go!*

**WARNING:** Always be careful when using boiling water. Do not immediately twist lid on after filling with hot water. **Allow steam to dissipate for 1 to 2 minutes prior to twisting on lid.** Do not overfill. Always keep liquid below the filter screen when filling.

Ensure the threads (top+bottom lid, shell, filter) of the Travel Infuser are clean, dry, and securely in place. **Note: Small obstructions, like loose tea or an uneven silicon seal, can compromise the seal and cause leakage.**

**Video Guide:** <https://youtu.be/DrIDyaU1bVI> (type into web browser)

If you require any further assistance, please contact The One Glass at <https://www.theoneglass.com/>

**Before First Use:** Twist off lid and filter. Check to ensure that silicon seals are in place on both the filter component and the lid. Twist off the base and check the base seal is secure – there is a circular guideline. It is recommended to wash all parts before use.

**To Disassemble for Cleaning:** Twist off lids and filter, then carefully push down on the glass and pull through bottom of the exterior shell. Take note of how the bottom lid seal is positioned: the flat side contacts the bottom lid. The glass has a skirt-shaped seal with the wider side positioned downward. Both of these seals can be temporarily removed for cleaning. It is best to disassemble the Travel Infuser prior to dishwashing to ensure a thorough clean and prevent condensation buildup between the shell and glass. **Dishwasher safe. Do not use abrasive cleaners.**

**Removeable Filter:** The food grade stainless steel filter is fixed inside a secondary top component. This twist-off filter is optional and can be removed with the top lid twisting directly onto the shell and glass. Do not attempt to remove the metal filter from its housing.

## LOOSE OR BAGGED TEA

1. Remove top lid and filter
2. Add tea into glass
3. Carefully pour in hot/cold water
4. Wait 1-2 minutes for steam to dissipate
5. Secure top lid and filter

## SINGLE STEEP TEA

1. Remove top lid and filter
2. Carefully pour in hot water
3. Wait 1-2 minutes for steam to dissipate
4. Spoon tea on top of filter
5. Twist on lid
6. Turn Travel Infuser upside-down, steep to desired colour/flavour
7. Turn Travel Infuser back upright
8. Twist off + remove filter component
9. Secure lid

## COLD BREW TEA

1. Remove top lid and filter
2. Add tea into glass
3. Fill with cold water
4. Secure lid and filter, leave in fridge for 4-8 hours

## COLD BREW COFFEE

1. Remove top lid and filter
2. Fill with cold water
3. Twist on filter component
4. Spoon coarse-ground coffee **on top** of filter
5. Secure lid
6. Turn upside-down, leave in fridge for 6-8 hours

**Travel Infuser Components:** Borosilicate inner glass, Protective clear Tritan® shell, Removeable food grade stainless steel filter, Tritan® base, Tritan® lid, Silicon seals & carry strap
